

# LIVE & WORK *In Alaska*

## IS JUNEAU YOUR NEW HOMETOWN?

### *Uniquely Juneau*

Juneau has a small town feel while uniquely surrounded by wilderness and adventure. Here we spend your time viewing wildlife, taking spontaneous fishing trips, exploring atop glaciers and enjoying all Alaska's capital city has to offer.

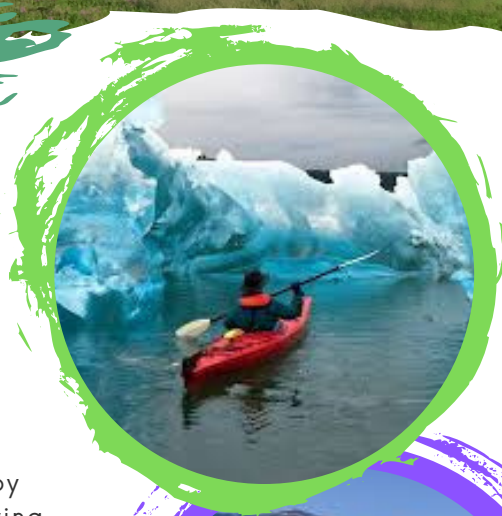

### *Why JAMHI?*

From our passion to help others to our commitment to our code of ethics and commitment to quality, to our willingness to continuously learn and cooperatively problem-solve and support one another, JAMHI's positive organizational culture and the people who participate in it and maintain it every day are deeply appreciated. We were awarded the Gold Bell Seal in 2023 for being an employer that strives to improve employee mental health and create a psychologically safe workplace for all.

### *What We Do?*

We provide integrated behavioral health, physical healthcare and wellness services for people with behavioral health needs across the lifespan, community housing for adults with mental illness and primary care services to anyone who needs quality healthcare. We serve people who have experienced trauma, those who are medically underserved or vulnerable, all in pursuit of our mission of "helping everyone live their own best lives". Everyone receives services regardless of their ability to pay.
